The system will count only actual payments with a successful status made within the campaign period. Transactions that are cancelled, refunded, declined or do not meet these campaign terms and conditions are excluded.

---

5. Ineligible Transactions

This campaign will count only transactions that meet the conditions specified in **Section 4, Eligible Transaction Types.**

The following transactions will not count toward accumulated amounts or campaign points.

1. Transactions that are unsuccessful, cancelled, declined, refunded or subject to a chargeback.

   If a refund applies only to certain goods or services, for example where several goods or services are purchased and paid for on a single receipt and only some items are refunded, the Company will deduct only the refunded amount from accumulated spending. The remaining spending on the same receipt will continue to count toward accumulated spending and points as usual.

2. Top-ups to a TrueMoney account, whether through banks, credit/debit cards, merchants, top-up machines or other supported channels.

3. Withdrawals or transfers from a TrueMoney account to a bank account or other channels that are not eligible transfers under Sections 4.1.3 and 4.2.3.

4. Transfers or payments made by scanning personal PromptPay QR codes that are not payments for goods or services to merchants or businesses under Sections 4.1.2 and 4.2.2.

5. Linking a bank account, credit card or debit card to a TrueMoney account without making a payment transaction for goods or services that meets the campaign conditions.

8. Payments for online advertising, such as TikTok Ads, Meta Ads, Google Ads and YouTube Ads.
9. Transactions made before joining the campaign or outside the campaign period.
10. Transactions that the Company identifies, or has reasonable grounds to believe, involve fraud, transactions created to increase points, circular transfers or transactions that do not arise from normal purchases of goods, receipt of services or genuine money transfers.

If a transaction previously counted toward the accumulated amount is cancelled, refunded, subject to a chargeback, later found not to meet the conditions specified by the Company, or found to involve fraud under Section 9, the Company may reduce or cancel the accumulated amount, accumulated points and ranking arising from that transaction, even if those amounts, points or rankings have already appeared in the system or on the Microsite.

---

6. Top 100 Ranking

The Company will rank participants based on the number of accumulated campaign points recorded in the Company’s system.

The Company will display the Top 100 participant rankings on the Microsite according to the following rules.

1. Ranking information will be updated once a day by approximately 20:00.
2. Displayed information may be delayed depending on the system's processing time.
3. The Company will display participant information with some details masked, such as certain digits of phone numbers, or in another appropriate format.
4. Rankings displayed during the campaign period are preliminary information only and do not constitute the official results.
5. The Company will verify transaction accuracy, accumulated points and participant eligibility again after the campaign period ends.

If two or more participants have the same number of accumulated campaign points, the Company will rank them based on the spending amount remaining after points have been calculated. The participant with the higher remaining spending amount will receive the higher ranking.

If participants have both the same number of accumulated campaign points and the same remaining spending amount, the Company will consider the date and time at which each participant reached that accumulated amount. The participant who reached the relevant points and accumulated spending amount first, based on the date and time recorded in the Company's system, will receive the higher ranking.

Example 1 Equal Points but Different Remaining Spending Amounts

Participant A has accumulated spending of THB 30,200, earns 100 points and has THB 200 remaining. Participant B has accumulated spending of THB 30,100, earns 100 points and has THB 100 remaining. Participant A therefore receives the higher ranking because their remaining spending amount is higher.

Example 2 Equal Points and Equal Remaining Spending Amounts

Participants A and B each have 100 accumulated points and THB 200 in remaining spending. Participant A makes the transaction that brings their accumulated spending to THB 30,200 on 10 November 2026 at 10:00. Participant B makes the transaction that brings their accumulated spending to THB 30,200 on 10 November 2026 at 15:00.

Participant A therefore receives the higher ranking because they reached both 100 points and THB 200 in remaining spending before Participant B.

Example of Ranking by Accumulated Points

Customer	Accumulated spending	Points	Remaining spending	Rank
A	3,890 THB	12	**290 THB**	**1**
B	3,750 THB	12	**150 THB**	**2**
C	3,620 THB	12	**20 THB**	**3**
D	3,590 THB	11	**290 THB**	**4**

7.4 Conditions for Confirmation of Eligibility

The right to attend the event is personal to the winner. The winner must be the same person as the owner of the TrueMoney account used to participate and cannot transfer, change, sell or give this right to another person.
